

# Brian Cordisco

📍 Berlin, Germany    ✉ cordiscobrian@gmail.com    📁 Portfolio    🌐 Web-Dev-Codi

## PROFILE

---

Through my immersive training at Digital Career Institute and WBS Coding School, I have developed robust software development skills throughout the entire development lifecycle of applications. I excel in both client-side and server-side development, demonstrating strong proficiency in industry-standard programming languages and frameworks. Additionally, my experience includes enterprise-level version control practices and collaborative development workflows. I bring a thorough understanding of modern software architecture and DevOps best practices, including continuous integration, deployment automation.

## EDUCATION

---

**Web and Software Engineer**, *Digital Career Institute* 2024

Development with Express, MongoDB / Mongoose Cybersecurity Concepts, Authentication with JWTs, Project Management, Agile Development, HTML, CSS, JavaScript, Node and Object-Oriented Programming, Functional Programming, Algorithms, Linux, VSCode, and NeoVim

**Full Stack Web and App Development Certificate**, *WBS Coding School* 2021

Rest API / DevOps, Responsive Web Design, Databases(SQL-No-SQL), Version Control(Git-GitHub), and Backend Programming.

**Information Technology / Associates Degree**, *ITT Technical Institute* 2014 - 2016

Operating Systems, Computer Systems, Database Systems, Computer Networking, Computer Architecture, and Website Design

## PROJECTS

---

### Flixx Movie Search Database.

[Flixx](#) 

- Dynamic and user-friendly movie database designed for seamless exploration of diverse films. Search for your next cinematic experience with ease, utilizing robust filters and personalized recommendations. Discover, explore, and curate a watch list effortlessly on this comprehensive movie platform. Built using JavaScript, HTML, CSS, and compiled with Webpack

### DietTracker App:

[DietTracker App](#) 

- Empower your health journey with my intuitive diet tracker app. Effortlessly log meals, track nutritional intake, and set personalized goals. Access insightful analytics to make informed choices, while enjoying a user-friendly interface that transforms managing your diet into a positive and empowering experience. Built with JavaScript, HTML, and CSS.

### Inquizable:

[Inquizable](#) 

- Elevate your general knowledge with my interactive quiz app. Immerse yourself in a diverse range of questions, challenge your intellect, and track your progress. Enjoy an interactive learning experience that makes the acquisition of new knowledge both exciting and rewarding, all with the convenience of our user-friendly quiz application. Built using JavaScript, React, TailwindCSS, Node.js, and MongoDB.

### Four Flavours Express:

[Four Flavours Express](#) 

- Four Flavours Express is an e-commerce food delivery platform I developed featuring integrated Cloudinary media management and Stripe payment processing. The responsive web application delivers a seamless ordering experience with secure transaction handling and optimized mobile performance, demonstrating my full-stack development capabilities and UI/UX design skills. Built with Vite.js, TailwindCSS, JavaScript.

## EXPERIENCE

---

### Coding and Web Development Tutor

Digital Career Institute

Berlin, DE

March 2024 - current

- Explain Core Concepts: Break down web development principles like HTML, CSS, JavaScript, frameworks, and backend technologies in a way that's easy for students to understand.
- Guide Hands-On Projects: Help students build real-world projects, such as responsive websites, web applications, or interactive components, to reinforce learning and showcase their skills.
- Debug and Troubleshoot: Assist students in identifying and fixing errors in their code, teaching debugging techniques and best practices for problem-solving.

### Web Developer

Freelance

Berlin, DE

July 2021 - August 2023

- Design and Develop Websites: Collaborate with clients to create visually appealing, user-friendly, and functional websites customized to their specific needs and goals.
- Customize and Maintain Projects: Implement custom features, integrate third-party tools, and provide ongoing support or updates to ensure websites remain modern and secure.
- Communicate with Clients: Manage client relationships by gathering requirements, providing regular updates, and ensuring deliverables align with expectations.
- Handle End-to-End Development: Take responsibility for every aspect of a project, including coding, testing, deployment, and performance optimization.

### Sous-Chef

Dog and Bull Brew Music House

Pennsylvania, U.S.A

June 2009 - March 2019

- Assist in Kitchen Operations: Support the chef in planning, preparing and organizing daily kitchen activities to ensure a smooth workflow and high-quality product.
- Supervise Staff: Oversee kitchen staff, delegate tasks, and ensure adherence to recipes, presentation standards, and food safety regulations.
- Create and Execute Menus: Contribute to menu development by experimenting with recipes, incorporating seasonal ingredients, and ensuring menu align with the restaurant's vision.
- Maintain Inventory and Supplies: Monitor stock levels, coordinate with suppliers, and ensure that the kitchen has the necessary ingredients and tools to operate efficiently.

## SKILLS

---

**Programming languages:** JavaScript, CSS, HTML, and Typescript

**Frameworks and Libraries:** React.js, Node.js(Express), and Next.js

**Soft Skills:** Collaboration, Communication, Attention to Detail and Adaptability

## LANGUAGES

---

**English:** Mother Tongue/Native

**German:** A2.1 Level committed to progressing toward B1 level proficiency

## CONTINUOUS LEARNING

---

- Self-Directed Learning: Actively pursue advanced programming concepts through in-depth technical literature and industry documentation, with a particular focus on emerging software development methodologies and best practices.
- Professional Certifications: Successfully completed multiple specialized certifications and advanced training programs, demonstrating a consistent commitment to technical excellence and staying at the forefront of industry innovations.
